VNGUS (2016-2019), building a  
strong foundation in  
programming and software  
development.

# WORK EXPERIENCE

**Geek**  Web Solution

MAY 2019 - NOV 2022

---

***SR. WORDPRESS DEVELOPER | TEAM LEADER***

I started my coding journey at Geek Web Solution as a fresher. Over 3.5 years, I gained hands-on experience and steadily grew within the company. Through dedication and continuous learning, I advanced to a team leader role. Along the way, I expanded my skill set, adding expertise in Shopify and React. This journey helped me build a strong foundation in development and leadership.

# WORK EXPERIENCE

NOV 2022 - APR 2023

---

***SR. WORDPRESS DEVELOPER | TEAM LEADER***

I have developed 15+ custom WordPress plugins from scratch, including WooCommerce extensions and Contact Form add-ons. My plugins are built with clean code, optimized for speed, and follow WordPress best practices. I focus on seamless integration, scalability, and user-friendly customization, ensuring efficient and reliable solutions for WordPress websites.

# WORK EXPERIENCE

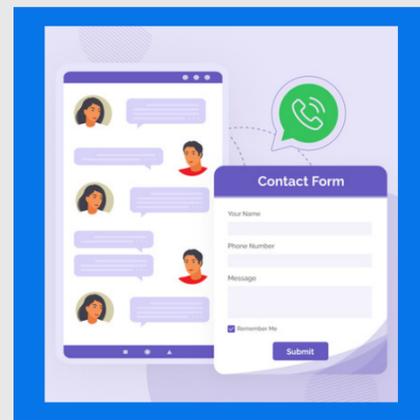

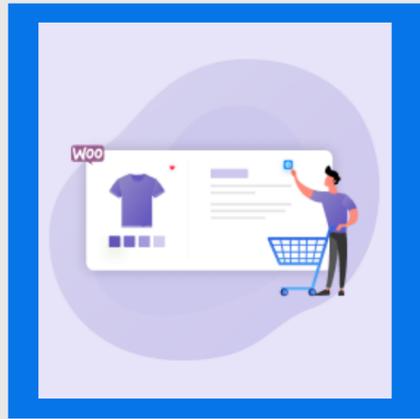

MAY 2023 - NOV 2025

---

## ***SR. WORDPRESS DEVELOPER | TEAM LEADER***

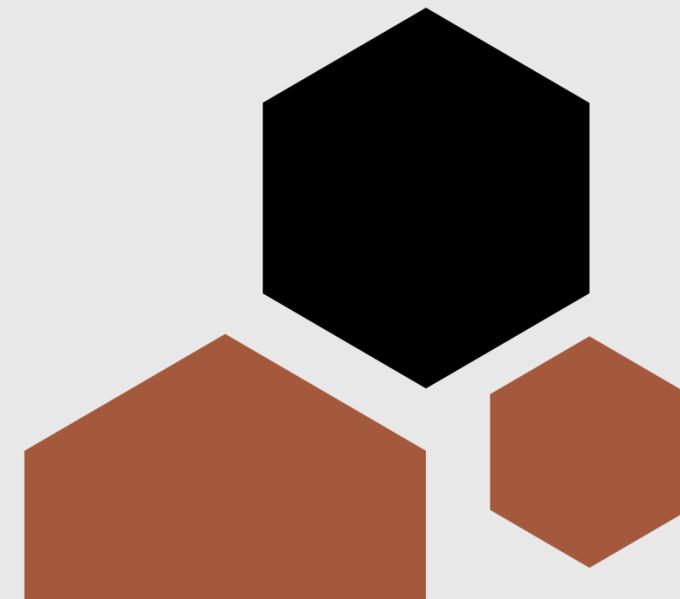

Throughout my journey with Vision Infotech, I have successfully managed multiple client projects and meetings, handling some of the most complex and high-level challenges. My expertise includes working with multi-network WordPress sites, multi-language integrations, accessibility, SSO (Single Sign-On) authentication, and other advanced implementations. With a strong track record of delivering intricate solutions, I thrive in tackling demanding technical requirements and ensuring seamless project execution.

# PLUGINS PORTFOLIO

I have developed and contributed to a number of WordPress plugins, both free and premium, including WooCommerce and contact form add-ons. Many of these plugins are maintained on WordPress.org, where I managed client support tickets. Some of these plugins have achieved over 10,000 active installations, which shows their reliability and value to the WordPress community.

**[Plugin list \(Geek Code Lab\)](#)**

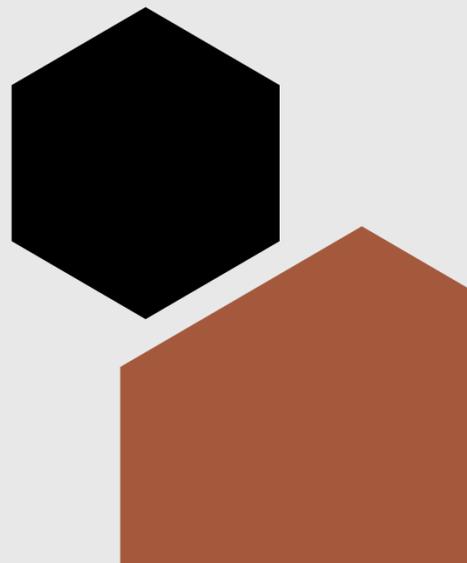

# WORDPRESS CUSTOM WEBSITES

I have developed several WordPress websites that feature dynamic content. My expertise includes creating custom post types, implementing dynamic content using Advanced Custom Fields (ACF), and integrating website forms with customer relationship management (CRM) systems.

Additionally, I have experience working on WooCommerce websites, focusing on payment gateway integrations and customizations. I have also developed real estate websites utilizing the IDX plugin for seamless property listings and deleting.
